

INNER LACQUERING

YOUR
SUSTAINABLE
PACKAGING
PARTNER

ELEVATE YOUR BRAND WITH ECO-FRIENDLY,
CUSTOMISABLE SOLUTIONS.

ELEVATE YOUR BRAND WITH OUR CUTTING-EDGE INNER
LACQUERING TECHNIQUE — A REVOLUTIONARY SOLUTION
COMBINING SUSTAINABILITY AND INNOVATION.

DEVELOPED BY OUR IN-HOUSE EXPERTS,
THIS WATER-BASED DECORATION METHOD FOR
PERFUMERY BOTTLES SETS A NEW STANDARD.

CUSTOMISATION & VERSATILITY

Tailored to meet specific customer requirements, our lacquer offers unparalleled design versatility and is available in a range of tones from translucent to opaque. It perfectly complements various bottle shapes and sizes, and integrates seamlessly with other decoration methods like Screen Printing, Hot Stamping, Digital Printing, or Embossing.

Transform your perfumery bottles with our innovative inner lacquering technique. Contact us today to learn how we can help elevate your brand with our eco-friendly, customizable solutions.

ECO-FRIENDLY

Water-based formula with minimal solvents.

VIBRANT COLORS

Full spectrum from translucent to opaque.

SAFE & NON-TOXIC

Free from carcinogenic and toxic substances.

NO PIGMENT TRANSFER

Safe with all types of fragrances.

HIGHEST SAFETY STANDARDS

Our lacquer is meticulously crafted to meet the highest safety standards. Free from any carcinogenic, mutagenic and toxic substances (CMRs and SVHCs) and migrating pigments, our formulation ensures product integrity and safety, making it the best choice for health-conscious consumers.

UNMATCHED SUSTAINABILITY

Stoelzle's Inner Lacquering reduces CO₂ emissions by 72%, resulting in a 50% reduction in environmental impact. Our technique achieves a Unique Score significantly better than other solutions available on the market, ensuring your brand is staying environmentally conscious while achieving outstanding looks.
