- 38 mm with foam/PS22 liner
- 38 mm with IHS liner
- 45 mm with foam/PS22 liner
- 45 mm with IHS liner

## MAKE YOUR PRODUCT UNIQUE DECORATION

### CUSTOMIZED PRODUCTS

We set steps in the field of decoration at our in-house decoration sites. For us, the stunning finish of our bottles is all about adding value to a product, which then conveys perfectly the

emotions and ideas promised by the precious content. Alongside traditional techniques, we also offer modern and innovative techniques, such as recycled ink printing from rubber waste.

### DECORATION TECHNIQUES

#### SPRAYING

Colour is applied using spray technology. We offer a variety of colour options from glossy to satin, opaque to transparent and special effects.

#### PRINTING

Precise decoration through single or multi-coloured screen printing. A variety of colour systems can be used: organic inks, UV-inks, enamel or recycled ink from rubber waste.

#### FROSTING

This process gives the glass a matt surface. Frosted glass can be further decorated by screen printing and hot stamping.
