MIX 'N MATCH

CHOOSE YOUR PERFECT COMBO

Every cap can be combined with every bottle – according to your needs.

INDIVIDUALITY BY DECORATION

ADDED VALUE THANKS TO DECORATION

The individual decoration transforms the glass packaging into one-of-a-kind product.

CUSTOMIZED PRODUCTS

Tactical and optical effects highlight the value of your product.

INNOVATIVE TECHNIQUES

The highest quality is also an absolute must when it comes to decoration. Alongside standard techniques, we also offer innovative solutions.

DECORATION TECHNIQUES

SPRAYING

Colour is applied using spray technology. We offer a variety of colour options from glossy to satin, opaque to transparent and special effects.

PRINTING

Precise decoration through single or multi-coloured screen printing. A variety of colour systems can be used: organic inks, UV-inks or enamel.

FROSTING

This process gives the glass a matt surface. Frosted glass can be further decorated by screen printing and hot stamping.
