

The image is a top-down view of various fresh fruits and two bottles of juice on a light-colored, textured surface. On the left, there is a kiwi slice, a beetroot, a red apple, a whole carrot, and a lemon. In the center, there are two carrot slices and a whole orange. On the right, there is a banana slice and a whole banana. Two clear glass bottles with white caps are filled with juice: one with orange juice and one with yellow juice. The background is a light, speckled surface.

ONE STOP
ENDLESS SOLUTIONS

200 YEARS OF EXPERIENCE

STOELZLE GLASS GROUP

The Stoelzle Glass Group is a family-run company with six European and one US production plant and have been passionately producing high-quality glass packaging for over 200 years. Spanning a plethora of industries, Stoelzle has solutions for the food & beverage, spirits, pharmaceutical and perfumery & cosmetics sectors among others.

Stoelzle has the know-how to undertake all processes from product development, production and decoration, to the delivery of closures. Our expertise covers a variety of languages and time zones, and we have sales and manufacturing teams for food & beverage packaging all over Europe and the US.

ONE STOP FULL SERVICE

What sets Stoelzle Glass Group apart from the rest is our commitment to providing a high quality service. As glass experts, we raise the bar in not only production but in customer experience, guiding our customers through all stages of the supply of glass packaging, from new product developments to production, in-house decoration and finally, the supply of suitable lids to make our customer's glass packaging solutions complete. Having cultivated relationships with top caps and closure producers, as well as an internal expert at Stoelzle, we are able to pursue a holistic, cost-competitive, customer-centric approach that is unparalleled.

SUITABLE LIDS FOR
AIRTIGHT SEALING

SAFE, SEALED, SECURE

Our customers are the best, and deserve the best from us. Therefore, considering the most effective ways to maintain our customers' product integrity is a must here at Stoelzle. We ensure that each glass item has a suitable closure so that products are protected in the best way possible.

BENEFITS OF SUITABLE LIDS

- Serve as a security seal for glasses
- Ensure that the contents stay shelf-stable for longer
- Enable trouble-free opening and reclosing

OUR SERVICE FOR YOU

STANDARD CLOSURES

Since service and timely handling of customer enquiries are of paramount importance to Stoelzle, holding a stock of certain standard closures for glass jars is the most logical thing to do. Our stock of Twist-Off closures enables Stoelzle to guarantee timely results, from the first enquiry to the actual delivery of the desired caps and closures. Our glass experts ensure that all customers are able to source the most suitable closure with regard to safety and functionality.

CUSTOMISED LIDS

LIDS AS BESPOKE AS YOUR PRODUCTS

In addition to our wide range of ready-to-go closures, Stoelzle experts can recommend a customised lid for your unique product and are excited to undertake even the most ambitious challenges. All closures and caps can be selected by type and colour. In addition, any print can be applied to make your products stand out in the market attracting a wider audience. Our expertise allows us to offer the most cost-effective and appealing item for individual customer needs.

UNIQUE PRODUCTS

DEVELOPMENTS & DECORATION

NEW PRODUCT DEVELOPMENTS

If the packaging content for your products requires adaptation to fit its unique specification, Stoelzle is the right choice to partner with your company. We have a range of experts in design, decoration, engineering and production who develop an average of 250 new products per year.

DECORATION METHODS

Another way to create distinctive products, besides using customised lids or individually developed glass packaging, is with decoration. We have around 20 different decoration methods available, enabling Stoelzle to get truly creative, meeting and exceeding almost every expectation – we believe the creative opportunities are limitless. Stoelzle guarantees precise results; from the drawing to actual decorated samples.

CAPS & CLOSURES FOR
FOOD AND BEVERAGES

SUSTAINABLE CLOSURES

While ease of use and marketing aspects are important considerations, food and beverage packaging must also adhere to strict safety and sanitation standards to ensure safe consumption.

- PVC free twist off and ROPP closures
- New innovative solutions to avoid migration of plasticisers with food
- Innovative and sustainable closure solutions are better for the environment and better for our health

CLOSURES FOR JARS

For standard glass jars with a Twist Off finish, we offer the suitable closures. If customers would like the closure to help enhance brand image elevating the product from the competition, the lithography process could be the right route to choose. This process ensures any individual print can be applied to each standard lid. Additionally, special closures such as Twist Off with PVC-free liner for sustainability and safety reasons, Orbit Closures for easier opening and many more are available on request.

WE OFFER

- Twist Off regular (27 mm to 110 mm)
- Twist Off deep (38 mm, 43 mm, 58 mm, 63 mm, 66 mm, 70 mm, 82 mm) and extra deep with 70 mm
- Standard colours: White, black, gold, silver and copper
- Additionally colours: Any other desired colours can be ordered as needed
