

STOELZLE PHARMA – HEALTH & SAFETY

PHARMACOS

OUR NEW PACKAGING LINE FOR
WELLBEING & HEALTHCARE PRODUCTS

YOUR
SUSTAINABLE
PACKAGING
PARTNER

Our PharmaCos line offers a wide array of glass jars ranging from 5 ml to 500 ml in amber with screw neck. Additionally, our range of flat-shoulder bottles extends from 20 ml to 150 ml, available in both amber and flint glass. These bottles offer neck finishes of 22/400 GPI and 24/410 GPI to meet your specific needs.

CLOSURES FOR JARS

When it comes to our new range of amber jars, our offerings encompass a wide range of closures made from materials such as PP matte smooth, vegan materials, wood, Standard PP/PE, aluminium or acrylic, as well as child-resistant closures (CRC), among others.

DISCOVER OUR ALL-IN-ONE SOLUTIONS

MAKE YOUR PRODUCT UNIQUE

Whether you require a complete packaging solution or need assistance with product development – we have the expertise to meet all your design requirements.

Elevating your product with our in-house decoration to the forefront of the market is our specialty, and we offer a wide range of decoration techniques to achieve this. With over 20 different decoration methods available, we stop at nothing to deliver your perfect piece.

DECORATION TECHNIQUES

SPRAYING

Utilising cutting-edge spray technology, we can apply any colour with finishes ranging from glossy to satin or opaque to transparent. Your products can also receive unique special effects through our spraying process.

PRINTING

For intricate design styles, we offer single or multi-coloured screen printing to ensure precise application of your decorations. We go the extra mile by using various colour systems, including organic inks, UV inks, enamel, or sustainable recycled ink sourced from rubber waste.

FROSTING

If you prefer a matte surface, frosting might be the ideal choice for you. Classic frosted glass looks stunning as is, but for that extra touch of elegance, we can incorporate screen printing or hot stamping to give your frosted glass a distinctive flair.
