PHARMACOS COLLECTION

OUR NEW PACKAGING LINE FOR
WELLBEING AND HEALTHCARE PRODUCTS

200 YEARS OF EXPERIENCE

STOELZLE GLASS GROUP

Stoelzle Pharma is part of the Stoelzle Glass Group, a family-run company with five European and one American production plants. With more than 200 years of experience, the Group manufactures high-quality glass packaging for the pharmaceutical & healthcare, spirits, perfumery & cosmetics and food & beverage sectors.

Glass is one of the most sustainable packaging materials. We are proud to have achieved gold status in the EcoVadis sustainability rating, belonging to the top five percent of all evaluated companies. This award highlights our unwavering commitment to decarbonization, continuous innovation, and environmental protection.

OUR SERVICES

ONE-STOP SOLUTION

DESIGN & DEVELOPMENT

Whether you require a complete packaging solution or need assistance with product development, we have the expertise to meet all your design requirements.

CAPS & CLOSURES

As a comprehensive packaging supplier, we provide bottles paired with matching closures to ensure the perfect protection, precise dosage, and easy handling of your products.

DECORATION

With our in-house decoration facilities located in Europe and the US, we provide a comprehensive range of decoration techniques to customise your primary packaging, ensuring your design stands at the forefront of the market.

NEW

NEW COLLECTION

PACKAGING FOR WELLBEING AND HEALTHCARE

Our PharmaCos line offers a wide array of jars ranging from 5 ml to 500 ml in amber with screw neck as well as flat-shoulder bottles from 20 ml to 150 ml, available in both amber and flint glass with neck finishes according to GPI standards to meet your specific needs.

With a remarkable 70 % recycled content in amber and 38 % in flint, and the lightweight design of the bottles, our PharmaCos range is a sustainable choice for your products.

FLAT-SHOULDER BOTTLES

CAPS & CLOSURES

CLOSURES FOR JARS

When it comes to cosmetic jars, our offerings encompass a wide range of closures made from materials like PP matte smooth, vegan materials, wood, standard PP/PE, aluminium, or acrylic. Additionally, we offer child-resistant closures (CRC) and cosmetic caps with various liners, among other options. Multiple colours, printing or lasering the caps are possible.

MIX & MATCH

MAKE YOUR PRODUCT UNIQUE

DECORATION TECHNIQUES

Elevating your product with our in-house decoration to the forefront of the market is our specialty, and we offer a wide range of decoration techniques to achieve this. With over 20 different decoration methods available, we stop at nothing to deliver your perfect piece.

UNIQUE
AND
STUNNING

SPRAYING

Utilising cutting-edge spray technology, we can apply any colour with finishes ranging from glossy to satin or opaque to transparent. Your products can also receive unique special effects through our spraying process.

PRINTING

For intricate design styles, we offer single or multi-coloured screen printing to ensure precise application of your decorations. We go the extra mile by using various colour systems, including organic inks, UV inks, enamel, or sustainable recycled ink sourced from rubber waste.

FROSTING

If you prefer a matte surface, frosting might be the ideal choice for you. Classic frosted glass looks stunning as is, but for that extra touch of elegance, we can incorporate screen printing or hot stamping to give your frosted glass a distinctive flair.

RECYCLED INK

Stoelzle innovation team has developed a brand new eco-friendly black printing ink that is developed from rubber waste. Recovered Carbon Black, which is used as a basis of the new inks, is 100% derived from end-of-life tyres. The recycled ink saves carbon, and simultaneously reduces rubber waste. The recycled ink decor is available in a dark shade of black, as well as in shades of grey.
