CHOOSE YOUR PERFECT COMBO

Combine roller ball bottles with the perfect fitting caps and closures according to your needs.

*Also available with mini spray and screw cap closures.
You are welcome to contact us!

MAKE YOUR PRODUCT UNIQUE DECORATION

More about our decorations techniques.

CUSTOMIZED PRODUCTS

We set steps in the field of decoration at our in-house decoration sites. For us, the stunning finish of our bottles is all about adding value to a product, which then conveys perfectly the

emotions and ideas promised by the precious content. Alongside traditional techniques, we also offer modern and innovative techniques, such as recycled ink printing from rubber waste.

DECORATION TECHNIQUES

SPRAYING

Colour is applied using spray technology. We offer a variety of colour options from glossy to satin, opaque to transparent and special effects.

PRINTING

Precise decoration through single or multi-coloured screen printing. A variety of colour systems can be used: organic inks, UV-inks, enamel or recycled ink from rubber waste.

FROSTING

This process gives the glass a matt surface. Frosted glass can be further decorated by screen printing and hot stamping.
